

HIGHER EDUCATION ACHIEVEMENT REPORT

This Higher Education Achievement Report incorporates the model developed by the European Commission, Council of Europe and UNESCO/CEPES for the Diploma Supplement.

The purpose of the supplement is to provide sufficient recognition of qualifications (diplomas, degrees, certificates etc). It is designed to provide a description of the nature, level, context and status of the studies that were pursued and successfully completed by the individual named on the original qualifications to which this supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

Brunel University London's Higher Education Achievement Report is normally only provided to students online as an electronic document, and appears on screen with a watermark and a footer encouraging verification via VerifyAward.ac.uk.

1. Information identifying the holder of the qualification

- | | | |
|-----|--|--------------------------------|
| 1.1 | Family name(s): | PEREZ CONDORI |
| 1.2 | Given names(s): | YEHOSHUA BENJAMIN |
| 1.3 | Date of birth (day/month/year): | 18 December 1998 |
| 1.4 | Student identification number: | 2231349/1 |
| | | HESA Reference*: 2311130131167 |

*HUSID (HSA Unique Student Identifier) is the unique national identifying number for students registered at a UK university. It is defined by HESA, the UK's Higher Education Statistics Agency

2. Information identifying the qualification

- | | | |
|-----|--|---|
| 2.1 | Name of qualification/programme of study: | Bachelor of Engineering |
| 2.2 | Main field(s) of study for the qualification: | Computer Systems Engineering |
| 2.3 | Name and status of awarding institution: | Brunel University of London received its Royal Charter in 1966, and is a recognised body for the award of undergraduate and postgraduate degrees. |
| 2.4 | Name and status of institution (if different from 2.3) administering studies: | As above |
| 2.5 | Language(s) of instruction/examination: | English |

3. Information on the level of the qualification**3.1 Level of qualification: FHEQ Level 6**

See Section 8 for reference to nationally devised 'level indicators' which relate to the qualification as contained within the Framework for Higher Education Qualifications in England, Wales and Northern Ireland, (QAA, 2008). They apply to degrees, diplomas, certificates and other academic awards granted by a higher education provider with degree awarding powers. 'F' relates to Foundation level study and 'PM' relates to Pre-Masters level study.

3.2 Official length of programme: 3 years
3.3 Access requirements(s): Detailed Information regarding admission to the programme is available in the University's On-line prospectus at:
<http://www.brunel.ac.uk/study/Course-listing>
4. Information on the contents and results gained**4.1 Mode of Study: Full-Time****4.2 Programme Requirements:**

Undergraduate programmes normally comprise three levels (each usually corresponding to a year of full time study), and a student normally registers for 120 credits of study and 120 credits of assessment at each study level.

4.3 Programme details, and the individual grades, marks and credits obtained:**Assessment Results**

(CORE) = The block is core, therefore, if level 1,2 or 3 a grade of at least D- must be achieved or if level 5 a grade of C- must be achieved to meet the minimum profile requirements. (refer to Senate regulations)

ECTS = European Credit Transfer and Accumulation System (ECTS) is a standard for comparing the study attainment and performance of students of higher education across the European Union and other collaborating European countries. For successfully completed studies, ECTS credits are awarded. One academic year corresponds to 60 ECTS-credits that are equivalent to 1500–1800 hours of study in all countries irrespective of standard or qualification type and is used to facilitate transfer and progression throughout the Union.

(EX) = Assessment Block or Pathway Exemption

* = Mark or grade waived/set aside by Board of Examiners. Not used in calculation of award

= Mark or grade assigned by Board of Examiners

~ = Includes designated PDP activity (from 2005/6 only)

The total volume of assessment credit attempted is the sum of the assessment blocks and modular blocks shown. The total volume of study credit is the sum of the study blocks and modular blocks shown.

4.5 Overall classification of the qualification: Bachelor of Engineering - with second class (lower division) honours

5. Information on the function of the qualification

- 5.1 Access to further study:** The attainment of an undergraduate degree may entitle access to further studies at postgraduate level (Bologna FQ-EHEA 2nd cycle/Level 7 qualifications or equivalent) and/or professional career opportunities.
- 5.2 Professional status (if applicable):** Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partially meeting the academic requirement for registration as a Chartered Engineer.

6. Additional information

6.1 Additional information:

Outside their academic curriculum, students have the opportunity to engage in other activities that contribute to their own development as well as the life of the institution and the wider community. Those activities verified by the institution according to the policy approved by Senate are included - where applicable - in this section.

We encourage verification of the authenticity of this document by visiting 'verifyaward.brunel.ac.uk'.

Additional Awards (Accredited performance in non-academic contexts):

There are no awards recorded.

Additional recognised activities undertaken by students which demonstrate achievement:

- 2023/4 Brunel+ Bronze Award
The Brunel+ Award provides students with the opportunity to take part in extra-curricular activities to support their development into well-rounded, multi-skilled, experienced graduates.
- 2023/4 Ready for Work Programme
The Ready for Work programme provides students the opportunity to develop graduate attributes while working on projects aligned to the University's strategic plan. It aims to complement students' studies by enhancing their transferrable skills.
- 2023/4 Student Ambassador (Nov - Jul)
- 2023/4 Student Assistant (Feb - Jul)

University, Professional and Departmental Prizes:

There are no prizes recorded.
