

YEHOSHUA BENJAMIN PEREZ CONDORI

Date of birth: 18 December 1998
HESA ID Number: 23100009610029379
Brunel student code: 2231349/1
Programme: Computer Systems Engineering
Intended award: Bachelor of Engineering
Location: Brunel University London
Date of Issue: 04 September 2025

SECTION 1 – Progression Information

2231349/1

To progress, a student is required to obtain an acceptable profile for each level of study. You can check the details of the required minimum profile, including and special requirements or core assessments, in the programme documentation provided by your Department.

Progression Decision:

Congratulations! You have passed this year and are able to progress to the next level. If, for any reason, you are unhappy with any of your individual results, you should contact the Results Service in the first instance.

The Board of Examiners met on 05.09.24 and considered your academic profile.

Please be aware that you currently have 15 credits of E grade on your profile (after reassessments). The Board noted that you were entitled to a further CAPPED resit in EE2649 Exam due to your previously accepted Extenuating Circumstances on that module. Any further reassessment would have to take place BEFORE you started your Final Year and for EE2649 the next opportunity would be in May2025.

Please discuss this option with your Course Director (Nikolaos Boulgouris) to ensure you are aware of the implications of 1 E grade, and also of taking a further year to complete reassessment in this one module.

We will assume that you are progressing with 1 E grade on your profile unless they hear back on electronicalelectrical-tpo@brunel.ac.uk before 23.09.24. If you choose to resit EE2649 Exam during 24/25 please note that you would be registered as a Year2 repeat student for 15 credits and would then study Year3 in 25/26 academic year (You cannot do both at the same time unfortunately).

There is a 5-day Results Service now available for queries regarding your overall results and progression. Details of the Results Service are published via the following link: <https://students.brunel.ac.uk/study/cedps/results-service>

SECTION 2 – Uncapped Assessment

2231349/1

You are not required to retake any uncapped assessments.

SECTION 3 – Capped Assessment

2231349/1

You are not required to retake any capped assessments.

SECTION 4 – Current Assessment Results

2231349/1

Shown below are your completed assessment results, according to University records. Refer section 6 for Assessment Element Results.

Year	Assessment Block Code and Title	Grade	Credit Volume	ECTS	FHEQ Level	Attempt
2022/3	DIRECT_FHEQ5 **Direct entry into FHEQ5 - APL Credit		120	60	4	1

Year	Modular Block Code and Title	Grade	Credit Volume	ECTS	FHEQ Level	Attempt
2023/4	EE2648_CN Data Networks and Security	D-	15	7.5	5	2
2023/4	EE2649_CN Computer Architecture and Interfacing	E+	15	7.5	5	1
2023/4	EE2651_CN Object Oriented Systems and Programming	D-	15	7.5	5	1
2023/4	EE2652_CN Sensors and Automation	C-	15	7.5	5	1
2023/4	EE2657_CB Microcontroller Group Design Project (CORE)	A+	15	7.5	5	1

2023/4	EE2658_CB	Professional Practices and Business for Engineers (CORE)	D	15	7.5	5	1
2023/4	EE2659_CN	Microcontroller principles	D+	15	7.5	5	1
2023/4	EE2660_CN	Digital Systems Design	D+	15	7.5	5	1

<u>Year</u>	<u>Modular Block Code and Title</u>		<u>Grade</u>	<u>Credit Volume</u>	<u>ECTS</u>	<u>FHEQ Level</u>	<u>Attempt</u>
2024/5	EE3634_CB	Engineering Management and Quality Engineering (CORE)	D	15	7.5	6	1
2024/5	EE3635_CN	Embedded Systems	D	15	7.5	6	1
2024/5	EE3636_CB	Individual Project (CORE)	C+	45	22.5	6	1
2024/5	EE3637_CN	Advanced Computing Technologies	C	15	7.5	6	1
2024/5	EE3639_CN	Artificial Intelligence Systems	D-	15	7.5	6	2
2024/5	EE3640_CN	Autonomous Systems Design	C+	15	7.5	6	1

SECTION 5 – Areas of Study

2231349/1

You do not have any areas of study under your profile.

-
- (CORE) = The block is core and therefore must be passed at threshold to meet the minimum profile requirements.
- ** = Assessment Block or Pathway Exemption
- (*) = Mark or grade waived/set aside by Board of Examiners. Not used in calculation of award.
- (#) = Mark or grade assigned by Board of Examiners.
- ~ = Includes designated PDP activity (from 2005/6 only)
- ECTS = European Credit Transfer and Accumulation System (ECTS) is a standard for comparing the study attainment and performance of students of higher education across the European Union and other collaborating European countries. For successfully completed studies, ECTS credits are awarded. One academic year corresponds to 60 ECTS-credits that are equivalent to 1500–1800 hours of study in all countries irrespective of standard or qualification type and is used to facilitate transfer and progression throughout the Union.

The total volume of assessment credit attempted is the sum of the assessment blocks and modular blocks shown. The total volume of study credit is the sum of the study blocks and modular blocks shown.

SECTION 6 – Assessment Element Results

Shown below are your results at the element level for each module, according to University records.

<u>Modular Block Code and Title</u>	<u>Attempt</u>	<u>Element Type</u>	<u>Mark</u>	<u>Grade</u>	<u>Weighting</u>
EE2648_CN Data Networks and Security	1	Project		B-	20
	1	Examination	2.0	E-	80
	2	Examination		C-	80
EE2649_CN Computer Architecture and Interfacing	1	Laboratory Work/Reports	15.0	A	40
	1	Examination	1.0	MA	60
	1	Examination		NS	60
EE2651_CN Object Oriented Systems and Programming	1	Coursework		D-	100
EE2652_CN Sensors and Automation	1	Test		B	20
	1	Report		MA	30
	1	Report		C	50
	1	Report		D	30
EE2657_CB Microcontroller Group Design Project	1	Demonstration	17.0	A*	35
	1	Group Project	15.0	A	35
	1	Assignment/Essay	16.0	A+	30
EE2658_CB Professional Practices and Business for Engineers	1	Self-assessment		S	0
	1	Assignment/Essay		E+	70
	1	Assignment/Essay	13.0	B+	30
EE2659_CN Microcontroller principles	1	Laboratory Work/Reports	10.0	C+	40
	1	Examination	6.0	D	60
EE2660_CN Digital Systems Design	1	Laboratory Work/Reports	7.0	D	50
	1	Assignment/Essay	8.0	C-	50
EE3634_CB Engineering Management and Quality Engineering	1	Continuous assessment		S	0
	1	Assignment/Essay		D-	60
	1	Assignment/Essay		C-	40
EE3635_CN Embedded Systems	1	Project	14.0	A-	40
	1	Examination - over 48 hours	1.0	F	60
EE3636_CB Individual Project	1	Project		C+	100
EE3637_CN Advanced Computing Technologies	1	Report	8.0	C-	40
	1	Examination		C+	60
EE3639_CN Artificial Intelligence Systems	1	Examination		E	100
	2	Examination		C-	100
EE3640_CN Autonomous Systems Design	1	Group Project		B+	50
	1	Report		D+	50

Grade Descriptors

These generic grade descriptors are intended to be used as a tool throughout the assessment process (in assessment design, marking/grading, moderation, feedback, and appraisal) for any assessment set at each Undergraduate Level in the University. They are designed to show no disciplinary bias and are not intended to act as surrogate Level, award or award classification descriptors. The grade descriptors should be read in conjunction with the learning outcomes associated with the assessment and their interpretation should take into account the Level of study of which the assessment is a part (termed here "the current Level").

Grade A*

Clearly demonstrates a highly sophisticated, critical and thorough understanding of the topic. Provides clear evidence of originality and independence of thought and clearly demonstrates exceptional ability to develop a highly systematic and logical or insightful argument, solution or evaluation at the current Level. Demonstrates exceptional ability in the appropriate use of the relevant literature, theory, methodologies, practices, tools, etc., to analyse and synthesise at the current Level. Shows an exceptionally high level of clarity, focus and cogency in communication at the current Level.

Grade Band A (A+, A, A-)

Clearly demonstrates a sophisticated, critical and thorough understanding of the topic. Provides evidence of independence of thought and clearly demonstrates the ability to develop a highly systematic and logical or insightful argument, solution or evaluation at the current Level. Demonstrates excellence in the appropriate use of the relevant literature, theory, methodologies, practices, tools, etc., to analyse and synthesise at the current Level. Shows a high level of clarity, focus and cogency in communication at the current Level.

Grade Band B (B+, B, B-)

Clearly demonstrates a well-developed, critical and comprehensive understanding of the topic. Provides some evidence of independence of thought and clearly demonstrates the ability to develop a systematic and logical or insightful argument, solution or evaluation at the current Level. Demonstrates a high degree of competence in the appropriate use of the relevant literature, theory, methodologies, practices, tools, etc., to analyse and synthesise at the current Level. Shows clarity, focus and cogency in communication at the current Level.

Grade Band C (C+, C, C-)

Demonstrates a systematic and substantial understanding of the topic. Demonstrates the ability to develop a systematic argument or solution at the current Level. Demonstrates a significant degree of competence in the appropriate use of the relevant literature, theory, methodologies, practices, tools, etc., to analyse and synthesise at the current Level. Provides evidence of clarity and focus in communication at the current Level.

Grade Band D (D+, D, D-)

Provides evidence of a systematic understanding of the key aspects of the topic. Demonstrates the ability to present a sufficiently structured argument or solution at the current Level. Demonstrates an acceptable degree of competence in the appropriate use of the relevant literature, theory, methodologies, practices, tools, etc., to analyse and synthesise at the current Level. Provides evidence of effective communication at the current Level.

Grade Band E (E+, E, E-)

Provides evidence of some understanding of key aspects of the topic and some ability to present an appropriate argument or solution at the current Level. Demonstrates some competence in the appropriate use of the relevant literature, theory, methodologies, practices, tools, etc at the current Level. Provides some evidence of effective communication at the current Level. However, there is also evidence of deficiencies which mean that the threshold standard (D-) has not been met.

Grade F

Work that is unacceptable.

Other Grades

AE = Aegrotat, CF = Failed core assessment block or a failed core element, DD = misconduct investigation, DN = Distinction, FR = Fail - repeat, FT = Fail - Withdrawn from module, MA = Mitigation accepted, NS = Fail - non-attendance/non-submission, PC = Pass, MT = Merit, S = Satisfactory completion, SA = Grade waived/set aside by Board of Examiners, SB = Substituted by new module, U = Unsatisfactory completion.

Indicative Mark Band	Degree class equivalent	Grade	Grade Point
90 and above	1	A*	17
80-89	1	A+	16
73-79	1	A	15
70-72	1	A-	14
68-69	2.1	B+	13
63-67	2.1	B	12
60-62	2.1	B-	11
58-59	2.2	C+	10
53-57	2.2	C	9
50-52	2.2	C-	8
48-49	3	D+	7
43-47	3	D	6
40-42	3	D-	5
38-39	Fail	E+	4
33-37	Fail	E	3
30-32	Fail	E-	2
29 and below	Fail	F	1

SECTION 7 – Additional Recognised Activities and University Prizes**2231349/1**

This section provides details of extra-curricular student awards and activities that represent achievement, and can be verified by Brunel University. Details of prizes gained whilst at the University are also listed here. Activities and awards included in this section support the University framework for developing well-rounded individuals, who have the knowledge, skills and experience to fulfil their potential as global citizens. However, the University and its Students' Union are not able to verify all extra-curricular achievements. Students may therefore have undertaken additional activities which have contributed significantly to their personal and professional development. They will be encouraged to record these in other documentation.

Additional recognised activities undertaken by students which demonstrate achievement:**2023/4 Brunel+ Bronze Award**

The Brunel+ Award provides students with the opportunity to take part in extra-curricular activities to support their development into well-rounded, multi-skilled, experienced graduates.

2023/4 Ready for Work Programme

The Ready for Work programme provides students the opportunity to develop graduate attributes while working on projects aligned to the University's strategic plan. It aims to complement students' studies by enhancing their transferrable skills.

2023/4 Student Ambassador (Nov - Jul)

2023/4 Student Assistant (Feb - Jul)

Diagram of higher education qualification levels in England, Wales and Northern Ireland

FHEQ: The frameworks for higher education qualifications (FHEQ) describe the achievement represented by higher education qualifications. They apply to degrees, diplomas, certificates and other academic awards granted by a higher education provider with degree awarding powers. 'F' relates to Foundation level study and 'PM' relates to Pre-Masters level study.

Transcript Queries and Details

For transcript content queries, please contact the appropriate academic department
(+44) 01895 274000

For verification and validity queries, please refer to:
<http://www.brunel.ac.uk/alumni/Awards-and-Certificates/Transcript-of-Studies>
or contact the
Awards Team, Student Services Directorate,
Awarding@brunel.ac.uk

For information regarding the Senate Regulations:
<http://www.brunel.ac.uk/about/administration/governance-and-university-committees/senate-regulations>

For nationally devised 'level indicators' which relate to the qualification as contained within the national
Qualification Frameworks on QAA's website see:
<http://www.qaa.ac.uk/assuring-standards-and-quality/the-quality-code>

Transcript Validation

The transcript is not valid without the validating stamp (as shown here)
and the signature of the Dean, Head of Department or his/her nominee:

Alternatively, on-line award verification can be obtained via
VerifyAward.brunel.ac.uk

If Applicable – Date of Award

The date of the award is the date of the appropriate
Examination Board's recommendation to the University Senate.
The date printed on the certificate normally differs from that shown as the date of award on the
transcript.
